NORTH AMERICAN JOB CREATION IS A COMFORTABLE GOAL

250 JOBS ADDED IN HOUSTON

Daikin launches U.S. power play from Houston HVAC plant

Daikin Industries Ltd. has set its sights on North America and is willing to open the purse strings to be the top heating, ventilation and air conditioning manufacturer here. Daikin is now manufacturing a group of residential cooling products and some of its high-end "VRV" commercial cooling products in Houston, and, as a result, is creating about 250 local jobs. Daikin did not disclose the cost of this investment.

"Homeowners and business owners will soon be able to experience the benefits of the Daikin brand, including energy-efficient performance and industry-leading technology," Dave Swift said. "That is really one of the keys that Daikin

David Swift, (left) the CEO and president of Goodman and Takeshi Ebisu, a senior executive officer and a member of Daikin's board, cut a ribbon at the Daikin manufacturing line in Houston.

has brought to us. ...With this business growth, Houston's reputation as the energy capital of North America will need to be compared to its stature of the indoor comfort area of North America."

50 JOBS CREATED IN ALABAMA

Daikin announces addition of 50 new jobs in Decatur

Governor Bentley joined Daikin Industries in Decatur to announce the expansion of one of their facilities. The expansion will provide 50 new jobs to North Alabamians.

"The thing that I think is such a great compliment, though, is when a plant expands. That's a compliment to the people of this area. It's a compliment to Alabama, and we're very excited to be with Daikin to expand 50 more jobs," Governor Bentley said.

DAIKIN SUPPORTS HABITAT FOR HUMANITY

Daikin provides funding and new HVAC systems to support Habitat's mission

Habitat for Humanity International announced today that Daikin North America LLC will donate \$250,000 in funding and Daikin-brand HVAC systems and equipment to Habitat for Humanity affiliates across the United States and Canada.

As part of Daikin's partnership with Habitat for Humanity, Daikin will donate heating and cooling equipment to support local Daikin Comfort Pros in installing new HVAC systems in Habitat homes. Moreover, Daikin is committed to providing for purchase equipment at below cost rates for Habitat builds across the U.S. and Canada, with potential savings in excess of \$1,000 per new house built.

"We are grateful to Daikin North America for their commitment to work with Habitat for Humanity to make affordable housing possible in partnership with low-income families," said Colleen Ridenhour, Deputy Director, Corporate and Foundation Relations, for Habitat for Humanity International. "Because of this generous gift, Habitat affiliates are now able to serve even more families in need of decent housing."
